Since 2004 Craig has provided leadership as the Divisional Director, Facility Management, at the 780 bed, 3.4 million sq.ft., core area Health Sciences Centre Winnipeg. With a staff of over 550, he is responsible for the strategic, tactical and operational management of the division including maintenance, housekeeping, security, central energy plant, engineering support, energy management and environmental sustainability services. Prior to becoming the FM Divisional Director, Craig held various management and support positions since 1991 within the Division. He has continued to pursue learning and challenging himself following his B.S. in Energy Systems Engineering he obtained his Professional Engineer designation, a Masters in Facility Management, CFM (IFMA), CEM (AEE) and in 2015 was the first to challenge and be granted CHES' CCHFM designation. He is involved in serving with CHES, BOMA and CSA. In addition to being an amateur barista, he has recently taking up smoking.....meat!
