Partnerships and Advocacy Committee Report – April 2022

With continued travel restrictions the Committee has continued to hold meetings virtually in September, December, March and June. No budget expenses due to this.

We have continued to review our Partnerships with IAHS and IPAC as well as discussing some additional future partnerships that look promising for CHES.

P & A Policies F1.1, 1.2 and 1.3 were updated and approved with minor changes.

A review of possible training/education for Z8001 has been initiated with the Health Care Standards Committee. The review will explore options to proceed forward with for CHES approval.

Respectfully submitted

Andrew Bradley

NB Vice-Chair, CHES Maritime Chapter
